Denials Workflow Pro

Automate the discovery and recovery of denials

Did you know that three percent of net revenue loss is caused by denials? While two-thirds of denials are recoverable, practices often lack the resources to devote adequate time to denials management.

TriZetto Provider Solutions' Denials Workflow Pro is a denials management tool that automates the discovery of denials due to eligibility, authorization issues and more. The solution uses an intuitive, easy-to-use interface and offers increased visibility into claims to effectively identify denials.

With custom work queues built for specficic staff member needs practices are able to achieve optimal efficiences, and excutive wide reports and dashboards are available to empower better decision making. Leveraging a proprietary documentation and letter generation technology the solution reduces manual work by automating the appeal process to recover denied revenue.

With Denials Workflow Pro you can:

- Reduce administrative costs associated with identifying and reworking denials

- Increase revenue by recouping denied claims

- Maintain consistent cashflow by preventing future issues

Recover more of the payment you are owed. Get started with Denials Workflow Pro today to identify recovery opportunities and reduce the time and cost of the appeal process.
